A WHALER LOST.

Captain and Seventeen of the Crew

Perish.
San Francisco, Feb. 18.—[By the As-

brings news of the loss of the whaling bark Tamerlane, off Puna, Sandwich

Islands, February 2. Capt. Howland and seventeen men were drowned. The Tamerlane cleared from San Francisco

January 13, with a crew of thirty-eight. The voyage down was satisfac-tory, but it appears the vessel lost her reckoning, the officers thinking her at the time of the wreck to be near Keal-

akeakua Bay, almost 2° to westward. No breakers were sighted when the vessel struck by the watch on deck. The sudden shock threw the crew into

great confusion. Only two small boats were available and one of then when lowered floated away before it secured occupants. Capt. Howland, the first mate, carpenter and cook and two oth-

and Associated Press.] The most in-tense excitement was caused in the large American colony here today by the announcement that one of the most prominent visitors at the place, Ed-ward Parker Deacon, a native of the United States, had shot and killed a Frenchman connected with the diplo-matic service, named Arbeille. The matic service, named Arbeille. The story is the old one of a handsome woman mated to a man who she betrays, forgetting honor in her infatuation or fancy for another man, bringing shame

forgetting honor in her infatuation or fancy for another man, bringing shame and sorrow upon her family.

Deacon and wife have been sojourning for some time past at the Hotel Splendide with their four children. For a time Deacon has suspected his wife of being unduly intimate with Arbeille, and kept a close watch. Last night he discovered Arbeille in his wife's chapber. He summoned the secretary of the hotel and together they went to Mrs. Deacon's apartment and forced the door. Mrs. Deacon was alone. The husband proceeded to an adjoining room and there discovered Arbeille attempting to hide himself behind a chair. Deacon leveled a revolver at the man and fired three shots, fatally wounding the Frenchman. Deacon was at once arrested, but it is the general opinion among American residents here that he "did just the right thing."

Another report of the affair says that Deacon had gone up to Paris, but returned suddenly and went straight to his wife's bedroom. Mrs. Deacon, it appears, had no idea that her husband would return so soon. Rumor has it that Deacon's unexpected return was

the aid of planks. The others were all drowned:

The list of lost is as follows: Capt.
Walter Howland, New Bedford, Mass.; Charles Tucker, New Bedford, first mate; William Oysterman, San Francisco, boat header; Allen Wilson, New Bedford, second mate; John Allen Gram, boat steerer; Harry Solon, Minnesota, carpenter; Fred, British, cook: Moses, Hawaiian, boat steerer: Henry Johnson, American, boat steerer; Frank Hewett, Toronto; Frederick Musman, Swiss; Fred Kaiser, Scandinavian. John he found, the story has it, his wife in bed and M. Arbeille standing by the bedside, evidently having sprung out of bed with the intention of escaping. After having reproached his wife, who moaned with terror, crawled from the bed, fell on her knees and piteously implored him to forgive her, the American, it is said, turned his wrath upon

Edward Deacon, when young, went from this city to Michigan, where he engaged in lumbering. He then returned, and a few years later was appointed attaché of the United States legation in Paris under Gen. Cass. He afterward came back to Boston and married Miss Parker, a wealthy Bostonian, and several children were bora to them, including Edward Parker Deacon. Many people in Ireland, said Balfour, feared that the measure would result in extravagance, possibly corruption. He denied this. In the first county councils there would be four ex-officio members— the Lord Lieutenant of the county, sheriff, nominee of the grand jury and sheriff, nominee of the grand jury and nominee of the presentment sessions. The qualifications of the voters for county councilmen and baronial councilmen would be identical. Illiterate persons and those who did not pay county taxes would have no vote. Balfour explained the workings of the bill as proposed and said the system of franchise suggested would give the minority a vote in the county councils. The councils might use their power to oppress the small minority and might be guilty of wilful and persistent corruption. PARIS, Feb. 18.—[By Cable and Associated Press.] All members of the French ministry have tendered their resignations to President Carnot. The cause of the resignation of the ministry was the action of the Chamber of Dep utles in connection with the bill deal ing with associations.

This afternoon Hubbard demanded

urgency for the bill as a reply to the attitude of the French bishops. Cassagnac described the bill as an in-

quitous méasure. Premier De Frevcinet denied that the measure was intended as an act of persecution of the church or that it need be regarded as the precursor of a separation of church and state. He warmly commended the conciliatory spirit of the Pope. He added: "We doubtless the Pope. He added: "We doubtless will be called upon some day to treat with the Vatican on the religious question. A portion of the clergy may possibly refuse to enter upon the path pointed out for them, but universal suffrage will judge between the two policies." In conclusion De Freycinet gave assent to the demand for urgency, though he said that he would not give the measure the sign. he would not give the measure the sig-nificance of Hubbard's motion. Finally De Freycinet again rose and demanded that the order of the day be moved, as indicating the views of the Chamber on

the subject.

In accordance Boisserin moved that
the government be requested to continue its republican policy.

De Freycinet accepted the motion and intimated that he considered it a

cabinet question.

The vote of the Chamber being taken

The vote of the Chamber being taken Boisserin's motion was rejected—804 to 203.

The Ministers, recognising defeat, immediately left the house in a body. The Chamber then rejected the urgency motion by a vote of 286 to 246.

The crisis, which was completely unforeseen when the Chamber met, was brought about by a coalition of Radicals and the Right. The divisions revealed and the Right. The divisions revealed and the Right. The divisions revealed a Radical strength of 191 votes, which does not suffice to constitute a governmental majority. Hence it is agreed that the formation of a new ministry will be a difficult task.

In order to stop friction between France and the Vatican, due to the refusal of Cardinal Richard. Arch.

fusal of Cardinal Richard, Arch-bishop of Paris, to communicate to the French authorities the letter written to him by the Pope, in which His Holi-ness enjoins the French prelates to give their adhesion to the republic, Cardinal Rampolla, Papal Secretary of State, has notified the French government that the papal nuncio at Paris has been instructed to distribute copies of the Pope's letter to the bishops.

LONDON, Feb. 18.—[By Cable and Associated Press.] The long-talked-of Irish Local Government Bill was introduced in the Commons today by Balfour. Balfour, in explaining the bill, said that it was not merely a county councils bill, but was what, in England, would be described as a district and counties bill. By its provisions administrative duties will be given to baron-

ist in England. Provision was made to allow twenty cess-payers to apply to the judge of assizes for leave to pe-tition for the removal of counselors of the barony or county on the ground of persistent disobedience of the law, cor-ruption or oppression, and if the charge established their guilt the counselors will be replaced by nominees of the Lord Lieutenant. [Ironical cheers.] If malversation and oppression were pos-

penditures as distinct from current expenditures. He could not conceive any danger of the councils becoming centers of political agitation to further the views of any particular party.

Replying to Healy, Balfour said that the bill would not affect the police system of Ireland and taxation would remain as at present.

In conclusion Balfour said that he did not pretend that the bill would regenerate Ireland, but he sincerely thought the Irish rate-payer had a right to claim the same measure granted in England and Scotland. He therefore recommended the bill to the favorable attention of the House.

John Morley characterized the bill as the "rottenest reed the Irish minority ever went on for the retention of privileges." He declared that the measure was a fraud in its absolute distrust of

The whole opposition broke forth into cheers when Morley called on the government to go before the people on the

conceive how any government could be so full of imbecility as go before the country on such a bill.

Justin McCarthy advised the government to burn the bill.

Harcourt said a bill more insulting to the Irish he could not conceive of. It bore the stamp of Chamberlain, who was the "mother of the bill."

Balfour denied that the bill was insulting to Ireland. If, owing to obstruction, the present bill should not be passed local government for Ireland would be indefinitely postponed. The only reason why the Irish parties should obstruct the bill was that it contained machinery to stop corruption and oppression. The only inference was that they desired to make some-

Conservatives cheered.

Labouchere said that Balfour was "between the devil and the deep sea." He had to introduce a bill to satisfy ihs master, Chamberlain, and had to persuade the Conservatives. The bill was adopted.

The convention adjourned until 7

American Legislature could be brought before the Supreme Court.

James Brice, of the south division of Aberdeen, a Liberal in favor of home rule for Ireland, denied that there was any comparison between the proposed councils in Ireland and the relation in which American State Legislatures stood to the Supreme Court, which has only power to nullify an act passed by a Legislature in excess of its powers.

T. D. Sullivan said he recognized in

A NEW AND VALUABLE DISCOVERY—
A Big money in it for any one who secures the right to use it; a process by which ordinary dairy butter can be increased in weight one-half, by adding pure, sweet mik; for instance, you take 100 pounds of butter, at a cost of \$30 in the ingredients, I cent to the pound, 50 cents; you have a total outlay of \$31.25; from this you make 150 pounds of choice butter, at 30 cents per pound, \$45; you have a net profit of \$13.75 out of an investment of \$31.25; making almost 50 per cent. in a single transaction; this new discovery is a fortune to any one who secures oleomargarine, but pure, sweet butter, made from every element of butter itself; no ingredient in it but purely wholesome food, and its keeping qualities are equal to any butter that can be made; there is no danger of over-production, as fully one-half of the butter consumed on this coast is imported here from the East—if this coast you could not then supply the demand; State and county rights for sale; persons who wish to engage in the business in this state can secure an interest with the owner, and will have full charge of the business, in his allotted territory; this will bear the strictest investigation, we can be a supply the demand; State and county rights for sale; persons which we have full charge of the business, in his allotted territory; this will bear the strictest investigation we can be a supply the demander of the business, in his slidted territory; this will bear the strictest investigation.

The Famous Boston Railroad Photograph Car Reaches Los Angeles. A few years ago, when a Boston firm of photographers fitted up a car and started it out over the Eastern railroads to get business wherever any was to be found, it was regarded generally as rather a visionary undertaking in which there could be very little if any profit. But the projectors had very clear notions as to what they wanted to do and how it could be done. The car was equipped with every modern ap-pliance for doing the best of work, and the artists sent with it were as fine as Boston has ever produced. The enter-prise was a success from the start, and the first car was followed by another, un-til now there are six on the road. Excluding this Coast, every city and town of importance in the United States and Canada has been visited, many of them several times, and the number of picseveral times, and the number of pictures that have been made is simply incalculable. Samouset Found Guilty of Se duction.

A Sensation in the Alvarado-Rawson Land Case.

Nathaniel Pryor Charged with Tam pering with a Witness.

Suit for Breach of Contract Before Judge Shaw-Several Divorce Cases Filed-General Court Notes.

The trial of the Samouset seduction case, which was resumed before Judge Smith and a jury in Department One yesterday morning, attracted an unusual number of people, the courtroom being crowded to excess almost all day. The taking of testimony was concluded by noon, and at 1 o'clock N. C. Bledsoe, Esq., opened the argument on behalf of the prosecution. He was followed by ssrs. Howard and S. M. White for the defense, and Assistant District Attorney McComas made the closing address to the jury, to whom the case was submitted . at 4:12 o'clock That body returned into court at 7:45 o'clock with a verdict of guilty as charged, and the defendant was remanded to the custody of the Sheriff to await sentence.

ANOTHER CASE OF CONTEMPT. During the trial of the case of Cande laria Tapia de Alvarado vs. James Rawson et al., an action to quiet title to a lot on Upper Main and New High streets, before Judge McKinley yester-day morning, a sensation was caused by the filing of the following affidavit by Francisco Rivas, one of the plaintiff's witnesses therein: State of California, County of Los An-

I am and at all the times in this affidavit mentioned was a duly subpœnaed witness for the plaintiff in the above-entitled case. On the 15th day of February, 1892, at the city of Los Angeles, I was approached by Nathaniel Pryor, who asked me if I was a witness for the plaintiff, and that my testimony would prove that she was a crazy woman. Pryor asked me if I was getting any pay. I replied that I had not received any pay, but expected to get my fees as a witness. Pryor replied that I would not get any pay from the plaintiff's side, but that he was the representative of the other side, and that if I would testify for that side he would see that I got my \$2 regularly every day, Pryor stating that the plaintiff had no money, and that all the money was on the other side. I asked Pryor what he wanted me to testify to, and he replied that he wanted me to say the plaintiff was not crazy. I refused to accede to his request and left him.

BREACH OF CONTRACT.

In Department Five yesterday the case of E. J. Durrell vs. H. E. Fraley et al., an action to recover damages in the sum of \$20,000 for an alleged breach of contract, came on for trial before Judge Shaw, but was not concluded and

will be taken up again this morning.

The plaintiff alleges that on August 14, 1888, he entered into a contract 14, 1888, he entered into a contract with Fraley, whereby the latter agreed to convey his "Mountain rancho," consisting of \$20 acres of land, north of Pecos in San Miguel county, N. M., together with a house and its contents, and 450 head of cattle, in exchange for the La Crescenta Hotel at Crescenta Cañada, ten acres of land adjoining it, the lots at Alhambra, one at Pasadena five lots at Alhambra, one at Pasadena and one at Brooklyn Heights. After the deal had been made, however, he found that defendant did not have as many cattle or as much land as he had represented, and as the slatter refused to live up to the agreement this suit was brought. The plaintiff was represented by Messrs, Washburn and Hubwas brought. The plaintiff was repre-sented by Messrs. Washburn and Hub-bell, while Messrs. Carran, Hendershott and G. W. SETTLED BY MARRIAGE.

How the Harris-Flood Seduction Case was Finally Disposed of. About two mouths ago a San Diego hack-driver named Jerry Harris, who used to live in this city, was arrested in San Diego on a charge of seduction. The complaint was sworn to by a young girl named Min-nie Flood of this city, who claimed that Harris seduced her under a promise of marriage. After Harris's arrest it was learned that he already had a wife, although both he and Miss Flood expressed a desire to become man and wife as soon as possible. Harris was examined and held for trial, but the case will never be tried, for Harris's wife secured a divorce about ten days ago and læst Monday Harris and Miss Ford, who will soon become a mother, were married. Yesterday the families of both parties were chasing around the courts trying to have the case against Harris dismissed, and their

prayer will probably be granted today. Manager Glenalvin writes that he

has about closed with McCauley for first base. This will leave only one player to be signed—a shortstop. Mr. Vanderbeck yesterday received a lot of blank contracts, issued by authority of the new National League. The provisions of the new contracts are

quite strict. If President Mone comes to Southern California for an umpire he might give Brittan a trial. Brittan has a good voice, understands the rules thoroughly and in the games he umpired here re-cently showed his aptitude for the

Cement Rate.

Pursuant to adjournment on Thursday last, the City Council held another day last, the City Council held abother informal meeting in the Council chamber yesterday morning for the purpose of arriving at some conclusion as to the water rates to be adopted for the current year, which was attended by all the members of that body, representatives of the various water. tives of the various water companies and others more or less interested in

tives of the various water companies and others more or less interested in the subject.

After the meeting had been called to order President Bonsall proceeded to read the ordinance fixing the water rates for the past year, and invited a discussion of the same with the view of readopting or amending it.

S. B. Caswell, of the City Water Company, presented a tabulated report of the comparative rates and incomes of the water companies in San Francisco, Oakland and Los Angeles for the year 1890, the water furnished being for domestic use only, and argued therefrom that while the Oakland companies only collected \$38,977 per annum from the city, they were allowed to collect \$440,022 from their customers at the rate of 21 cents per 1000 gallous, whereas in this city the rate was only 9 cents.

The table referred to is as follows:

on in gallons p al receipts.... illy receipts.... r 1000 gallons supplied..... per capita capita 6,500,0

After a brief debate upon the subject Councilman Innes brought matters to a focus by moving that the ordinance of last year be readopted without change.

President Bonsall expressed himself as in favor of this motion, as the water companies had asked for several changes, which, if made, would cer-tainly work a hardship upon the people, and, besides, should the Council accede

and, besides, should the Council accede
to the request of the companies there
was no telling what further changes
would be demanded later on.
S. B. Caswell stated that, as his company had not declared a dividend of over 4 per cent. for over two years, he thought it was entitled to some consid-

eration. Councilman Tufts said he thought the oest thing that could be done under the circumstances was to revise the ordinance wherever it should be found necnance wherever it should be found nec-essary, as there was plenty of time in

which to arrange this matter satisfac-torily to all concerned.

Councilman McGarry said the rates on the hills are not equal, as some of the owners of large lawns are getting water at less than cost, and the small water at less than cost, and the small lawn owners are paying more than their proportion. He thought that a rate at so much per square foot would be the proper thing, so that each person would pay for what he got.

The motion to readopt the ordinance

was then voted upon, but was defeated. Councilman Summerland stated that last year he had used his influence to se-cure a 75-cent rate. That was the first time that any cottage had been furnished with water at six bits per month. The people of the Eighth Ward were mostly poor and lived in small houses, and this rate affected his ward more, perhaps, than any other. He did not want the old ordinance dis-turbed, because if it were broken into the result might be that that rate would be changed.

Councilman Alford said he thought a clause should be inserted in the ordinance providing that a rebate be aloff during certain hours of the day.
S. B. Caswell objected to this, however, on the ground that this was only done by his company in districts supplied

done by his company in districts suppl done by his company in districts supplied from two-inch mains, or when the plumbing was defective in any house.

Councilman McGarry thought that if such was the case four-inch mains should be put in wherever there was any likelihood of trouble, to which Mr. Caswell replied that the company was laving sufficient mains all over the city: laying sufficient mains all over the city; that the plant was being constantly im-proved and extended, but that its perfection was necessarily a matter of slow growth.

After some further debate the question of the rate to be charget for cement work was again raised, and Councilman Tufts moved that the rate be reduced from 20 cents to 10 cents when paid in advance, but S. B. Caswell insisted that the present rate was

well insisted that the present rate was low enough.

The member from the Fifth Ward said that he had understood the gentleman to say at the last meeting that the only reason for the high rate charged was on account of the expense entailed in collecting it, and if this was obviated he could not see why the company should object to a reduction of the rate.

Mr. Caswell then addressed the meeting as to the necessity for providing ing as to the necessity for providing rates for fruit trees and gas engines, and explained his reasons for demand-

ing the same.

The meeting then adjourned until Thursday morning next, it being understood that the Committee on Water Supply will meanwhile draw up an amended ordinance for adoption at that

AMUSEMENTS TONIGHT.

AT THE OPERAHOUSE—The Rivals.
AT THE THEATER—Damon and Pythias.

Last month was the coldest January experienced by the people of the Ohio Valley in twenty-two years. They don't take much stock in that theory that the climate of the whole country is moderating, and that by and by there will be no very cold weather.

THE prize contest for the best poem on the topic, "The Times Flyer on the Kite-shaped Track," has begun. The prize is a year's subscription to the daily. The contributions should be in this office by Saturday evening. The limit is sixty lines. (For "pointers," see last Monday's TIMES.)

Is fractional currency is to be issued again it is suggested that thin sheets of aluminum might be a good substitute for paper with its dirt-absorbing propensities. Here is a chance for inventive genius. The old postal currency not only filthy but wasteful. About \$10,000,000 of it was lost by wearing out and otherwise.

In the article on the Soldiers' Home, yesterday, by a typographical error Tue Times was made to say that the capacity of the new storage reservoir will be 150,000 gallons. It should have read 1.500.000. The construction of the reservoir is noteworthy, both on account of the novel features which it presents and of the economy of expenditure.

ANDREW CARNEGIE's benefactions include \$1,000,000 for the Pittsburgh library, another \$1,000,000 for the Pittsburgh art gallery and museum, \$800,000 for the Allegheny city library, \$100,000 for the Carnegie library at Braddock, \$40,000 for the Johnstown library, \$250,000 for the Edinburgh library and more than that for libraries at Dunfermline, where he was born, Ayr and other Scotch towns.

THE proposition of THE TIMES to have color guards appointed at the various public schools to take charge of the flags seems to meet with general approval. Undoubtedly the boys and girls would appreciate the distinction, and would prove efficient in the discharge of their duties, So long as the flags are flown as an encouragement of patriotism, it would be well to inculcate ons of real veneration and deep consideration for the emblem of our country. Let the youthful mind comwhat the flag really means, and that, as it becomes their duty now to take care of it, so it may be their duty some day to defend it. Let the color guard assemble in front of head-

About 60 per cent. of the immigrants pay their passage with money remitted by relatives or friends in this country.

THE New York Metropolitan Museum of Art is not meeting with financial success in its efforts to keep the museum open Sundays. In a recent report the trustees say that while 30,000 people petitioned for the Sunday opening, and the attendance on Sundays has been large, the membership has fallen off 225 since the first of April. They further state that while the Sunday opening meets with popular approval the step remains only an experiment. It has put burdens on the finances of the museum which they are unable to bear. It has offended some of the museum's best friends and supporters. It has alienated some who have given freely of their time and means to the institution. It has resulted in the loss of a bequest of \$50,000. It is hoped that this direct and calculable loss will be offset by a greater public interest and a more generous support, but at present the museum finds its burdens increased and its revenues no larger than before.

A GENTLEMAN whose home is in Los Angeles, but whose business requires a residence in Sacramento a good part of the year, says that climate of the capital city is exglest" place he ever saw. Regarding one of the statements contained in a letter from San Diego, pub lished in THE TIMES of the 17th inst. relative to the contest for the enforce ment of the Pacific Mail's contract to stop its steamers at the harbor of San Diego, a well-posted officer and harbor man of that city writes the editor of THE TIMES a personal letter. After commending the letter published, our correspondent says:

correspondent says:

He errs a little in regard to the City of
Sydney in representing that she did not
come into the harbor. She came inside but
did not dock. She laid at anchor in the
stream, off the Santa Fé wharf, claiming that there was not water at the Pacificoast Steamship wharf for her to doc Coast Steamsnip what for her to dock there at low water. This was not true. From my own observation I know that she only drew 20 feet 6 inches of water, and that she could dock without any danger at that wharf at any stage of the water. At the other wharves there is more water. The facts show, all the same, the real

tactics of the Pacific Mail Steamship eople in their handling of the contract which they have entered into with the Government, so far as it affects San Diego. There is a manifest determination on their part to evade that contract: and it is a purpose in which they should be frustrated, if there is any virtue in promises and compacts. The cities and people of the entire southern coast are interested in the enforcement of this Pacific Mail contract; it is not a San Diego affair alone, by any means. The attempt on the part of the steamship company to nullify its agreement with the Government, and "skip" all the ports from the Mexican line to San Francisco, is a bold and indefensible piece of bad faith that should not be permitted to succeed. Action should be taken in the right quarter, with a view, if possisible, to compelling the enforcement of this contract both in spirit and letter. The object of the Government in paying such subsidies to steamship lines is the development and building up of com-mercial trade between the Central and South American states and our own territory; and this subsidy is intended to work for the common good, and not for the individual benefit of any company or of any particular city. The mere handling or transferring of

the mails is but a small part of the benefit which should accrue to Southern California in particular, and the United States in general, by the faithful and ligious persecution in Russia, and a conscientious performance of this service. The interchange of trade, while very small at present, would rapidly increase and assume vast proportions, if properly fostered. It is a trade which can, and should, be dictated and controlled by the commercial interests of this country, and the fact that it has been, and is now, almost entirely controiled by English and German traders s due to a want of proper support and facilities on the part of our Government, and to the further fact that California traffic has been too largely domi-

The San Diego Union of yesterday prints the following editorial on the ubject:

"FRIENDS IN NEED." The Union has observed with increasng astonishment and disappointment, if not chagrin, that the papers of Southern California have been as indifferent to the contest in which this paper and people of San Diego are gaged to force the recalcitrant Pacific Mail Company to comply with its contract as if the other cities of Southern California were not even remotely concerned in the result. Here and there has appeared an insignificant little paragraph to the effect that "San Diego people are still indignant over the at-tempt of the Pacific Mail to evade its contract to call at San Diego harbor," from which one unfa-miliar with conditions might infer that miliar with conditions might infer that the respective localities wherein these superlatively self-satisfied journals were published had no more reason to feel an interest in the outcome of the fight than the Zulus in Africa, while those who are familiar with the conditions know that the future prosperity of some of these very towns is indissolubly connected with that of San Diego; that if the harbor of San Diego were wiped from the map the entire coast of Southern California would be without a waterway that could ever attain to the dignity of a harbor, and that a blow would be administered to the commercial prospects of the south half of the State of California from which the

power of all the capital of the continent

But at last the chloroformed silence which our contemporaries have below which our contemporaries have hitherto observed has been broken, and the fore-most journal of Southern California, the Los ANGELES TIMES, has put its contemporaries to shame by a lucid and comprehensive presentation of the case, and by the candid admission that the commercial interests of all Southern California are involved in the issue. "Jayhawker," Col. J. H. Woodard,

long the political correspondent of The Times, and a regular member of its staff, visited this city and wrote a destalled and accurate account of the whole situation to that journal. His letter was published in The Times yesterday, together with a couple of the editorials of the Union bearing upon the subject. In conclusion he said:

the subject. In conclusion he said:

"The question of forcing the Pacific Mail to comply with the terms of its contract is one which concerns the whole people of the United States, and is of vital importance to all of Southern California. It will be many years before San Pedro will be improved so that it will be all that is required in the way of a harbor, and until that time the whole people of Southern California should demand that the rights of San Diego, which are their rights also, be properly respected."

THE TIMES [editorial] article concluded with the following comment: "The Times presents this subject of the Pacific Mail's contract to its readers as one of importance to all Southern California, holding that for the steamship company to give the go-by to San Diego would be to put a slight upon and do an injury to the whole southern coast, which is interested in having this coan steams the sarvice keet in

The Union is encouraged to observe, too, that another and a powerful advocate of the people's rights has appeared in the San Francisco Chronicle.

lowing: "I can give you a good reason for the Pacific Mail steamers not wishing to put into this port," said a prominent Government official to a Union reporter vesterday. "The steamers do an im-"The steamers do an mense passenger business between the South and Central American states and the United States. If the steamer put in here those passengers will disembark and take the most direct route East, thereby gaining possibly two days and a half, the greater part of which is consumed on greater part of which is considered the voyage to San Francisco. The Central Pacific would, therefore, lose this travel. Is it any wonder that the company is making a strong fight to avoid this port? But they will have to

The Water Question.

It now looks as though something decisive may come out of the pending water agitation, in which the people the Council and the companies are all interested.

In the open discussion of the subject during the past few days, it was learned that an option has been given by the City Water Company upon its property at the price of \$2,500,000, and that the proposed purchasers, representing Eastern and local capitalists, are look ing to the formation of a new company with the object of purchasing and consolidating all the water plants of he city under one corporation. In fact, a group of New York waterbond dealers is now en route to this city to take up the matter on the ground.

It is stated that the present owners are willing to accept bonds in the proposed new company in payment for their stock, and that the formation of a new company and the purchase of the various interests will probably be accomplished, whether or not the Council grants a new franchise. If it does so,

will doubtless be with the concurrence of the owners of the present franchise, whose legal rights cannot be taken away without their consent, nor without compensation; but if the Council declines to grant a new franchise, then the reorganization and consolidation can take place under the existing contract of the City Water Company, with interest. In that case the life of the contract will have to run its length. when the entire works will become the property of the city by previous stipu-

lation and by purchase.

The subject has already been before nembers of the Council, and that body will doubtless formally consider it at an early date. It is not surmised what the outcome will be, but it is now generally admitted that the city will hardly un dertake to build or authorize the building of new water works without first making provision for the extinction of the existing franchise or contract and the disposal of the present works Such an attempt would be apt to result in a legal contest, involving heavy liti-

ration. The matter, it is understood, will soon be presented to the Council, or to the Water Committee, in its latest phase.

#### AMUSEMENTS.

AT THE PLAYHOUSES. GRAND OPERAHOUSE .- Our lovers of the GRAND OPERABOUSE, Our lovers of the play packed the Grand Operahouse last night—not only filling every chair and gallery seat, but fringing the walls with intent and laughing listeners who reveled in three hours of unalloyed fun with Joseph Jefferson, the greatest comedian of America, in Richard Brinsley Sheridan's most charming comedy. The Rivida. Mr. Jefferica, in Richard Brinsley Sheridan's most charming comedy, The Rivals. Mr. Jefferson's acting is so ideally perfect as to be above criticism, There is not a pose of his figure, an inflection of the voice or the lifting of an eyelid that is not done precisely as "Bob Acres" would do it, and the strength of his powerful work is in the ease and absolute naturalness with which it is all performed. As the charming conception unfolds itself one almost forgets that he is looking at a play or a player, and the century plus, that has drifted into the everlasting was since the delightful comedy

"Mrs. Malaprop." There is no more humorous creation known to the stage than this character of the dear little old lady who uses such beautiful big words in such a sweetly blundering way that it keeps the house in ecstacies of mirth. God grant the dear old lady many long years to us yet, for it will be cycles of time, mayhap, ere we will look upon her like again! The company is almost wholly good—in fact so far above the common range of supporting people that one would be capitous were he to attempt to pick flaws. Louis James plays "Sir Luclus O'Trigger" with true Hibernian unction and spirit. W. F. Owen as "Sir Anthony Absolute" is as irascible and unreasonable as one could wish and plays the part with great strength. J. H. Barnes makes a most pleasing "Capt. Absolute." His manner is winning and manly and he makes a fine lover of the spirited "Lydia Languish," which was delightfully played by Viola Allen. She is a charming actress and made a very strong impression last night. Her work is full of fire and is greatly aided by her pronounced brunette beauty. The character lit of acting by George W. Denham as "David" was especially clever, and Blanche Bender made a very satisfactory "Lucy." The minor parts were played with such excellence as to make each of the players deserving of mention. Venerable Members Astonished by Palmer of Illinois.

Vigorous Onslaught on the Present Method of Electing Senators.

A Plea for a Direct Vote by the Free People of the States.

An Attack on the Grand Army by Bland o Missouri in the House-Other

gress.

By Telegraph to The Times. Washington, Feb. 18.—[By the Associated Press.] Senate.—"If the amendment to the Constitution, which I pro pose, is adopted, members of the Senate of the United States will be chosen by direct vote of the free people of the sev eral States, and it will be, what it never yet has been, a popular branch of the Congress of the United States." These were the words of Senator Palmer of Illinois in his speech in the Senate today urging the election of United States Senators by popular vote, and his ar raignment of the upper house of Con gress as a non-popular body was in language not often heard by the venerable members of that dignified assembly.

Senator Palmer opened his speech by saying that in urging the amendment he only obeyed the instructions given him in a most impressive manner by the people of Illinois. The Senator reviewed briefly the Douglas and Lincoln Senatorial contest in Illinois, and the detailed the successive steps and declar ations made by the Democracy of Illi nois in regard to this subject, which finally led to the Democratic triumpl in that State and the election of him self as a representative of that princi-ple to the United States Senate. The Senator insisted that the constitutional mode of electing Senators by the legis-lators of the States was no longer satis-factory to the American people. He did not intend to make himself responsible for the charges of bribery and undue influence that attended nearly every Senatorial election by indorsing or re-peating any of them. He referred to them in that slight manner only them in that slight manner only to emphasize the statement that the people no longer confided in, but were profoundly distrustful of, the methods of electing Senators by State legislatures. None of the reasons

which led the framers of the Constitution to deprive the people of direct control of the executive department and Senate now existed. Experience had long ago demonstrated the uselessness of electors for the selection of President and Vice-President. Wealth invested in com-merce, in manufactures, in railways, forests and mines demanded legislation forests and mines demanded legislation for its protection or its benefit, and its political power, whether employed in Congress or State legislatures, rarely failed of success. All that the people could gain by the proposed amendment would be enlarged powers of self-defense; Senators would be true and experience of the people and exp act representatives of the people and defend their homes and property from unequal and excessive burdens. They would dignify the States, for the peo-ple were the States. "Elections for the choice of Presidential electors, elections of members of legislatures who elect Senators, elections of members of the House of Representatives," said the Senator, "are alike influenced and often controlled by the unfair arrangement of districts. If the amendment to the Constitution which I propose is adopted members of the Senate will be chosen by direct vote of the free people of the several States, and the Senate will be

what it never yet has been, a popular branch of the Congress of the United States. Senator Mitchell of Oregon said he had listened with pleasure to the able remarks of the Senator from Illinois He (Mr. Mitchell) had the honor of in troducing a similar proposition in 1888 and one at the present session. Similar amendments were also introduced by the Senators from Indiana and New Hampshire (Messrs. Turple and Chand-ler.) All these propositions were re-ferred to the Committee on Privileges and Elections and by that committee to a sub-committee composed of Senators Chandler, Turpie and himself, and he was gratified to be able to state that nsultation the majority of sub-committee had agreed to report in favor of such amendment to the Consti-tution. It was their hope and belief that at a very early day the full Committee on Privileges and Elections would be able to report favorably an amendment similar to the one intro-duced by the Senator from Illinois.

The subject then went over. Mr. Dolph moved to take from the calendar and pass the bill extending for ten years the laws preventing the in-troduction of Chinese, but Mr. Hawley bjected. It was, he said, a bill of exraordinary severity and he wished at east time to read it.

Mr. Dolph gave notice that he would Mr. Dolph gave notice that he would call it up at an early day. Messrs. Peffer, Perkins, Morrill. Alli-son, Hale, Daniel, Dolph and Turpie de-livered eulogies on the late Senator Plumb, and the Senate adjourned.

House.—The Grand Army of the Republic has not infrequently been accused of being used to subserve partisan ends, but today the grave charge of seeking to divide the party against it-self was preferred against this great organization, in the House. Mr. Bland, the free-coinage leader, was the ac-cuser, and Mr. Harter, the free trader and anti-free coinage Democrat of Ohio, the gentleman charged with attempting to subvert the G.A.R. to the interest of

capitalists and monopolists.

Speaker Crisp called the House to order this morning, but resigned the gavel to Mr. Richardson of Tennessee. Mr. Geary of California, from the Committee on Foreign Affairs, reported a bill for the exclusion of Chinese. To

the calendar.
The Indian Appropriation Bill was

taken up.

During the course of the general debate on the bill Mr. Bland sent to the Clerk's desk and had read a circular letter written by Mr. Harter to variou Grand Army posts in denunciation of the Free Silver Bill and advising mem the Free Silver Bill and advising members of posts to urge Congressmen to vote against it, as it would prove detrimental to the interests of pensioners. This circular Mr. Bland characterized as a bulldozing document; it was an effort to intimidate members, and part of the bulldozing tactics of the millionaire, actics which had always been carried on in opposition to measures which would give free silver to the country. He denounced it as unfair and unoccoming to the dignity of a member.

Mr. Harter admitted the authorship of the circular letter. To men who were afraid to have the expression of their opinions made public such a circular might seem to be bulldozing. He was not a millionaire, nor was he the owner of any national bank. He was more of a farmer thau the gentleman from Missouri. He was as much opposed to giving the eliver bullion

producers the earnings of the people as he was to giving them to manufacturers. If the free coinage bill passed it would elect Benjamin Harrison for a second term, and this would be done by the Democratic House, under the leadership of the gentleman from Missouri. He would like to pay members of Congress with the seventy-cent dollar, and see how they would like it. If anything should be made legal tender it should be the corn of Kansas and not the silver of Colorado.

Mr. Bland then had Mr. Harter's biography as published in the Congres-

raphy as published in the Congressional directory read, in order to show that his business life was spent as a banker and manufacturer.

The silver bill was laid aside, and consideration of the Indian Appropriation Bill was resumed until the adjournment, which was until Tuesday.

A Sensational Event That Preceded Last Night's Match.

A Case Where "The Marine" Slipped Up--The Lawson-Conley Mill Won by Rounds.

Both the seating and standing capac-ity of the bosy gymnasium of the Pastime Club were taxed to their utmost limits last night, the occasion being the light-weight battle between James Lawson, the colored ex-champion of

Australia, and Jim Conley of Boston.

The event was preceded by a sensational bout, by which the truth of the old adage to the effect that "the nnexpected not infrequently happens," was brought home to those present very forcibly. George La Blanche, the "Marine," of pugilistic fame, in spite of the fact that he was shockingly out of condition, agreed to stop a husky 175-pound negro named Child in four rounds or forfeit a purse of \$25. Not only did he fail to do so, but much to the surprise of his meany adulters, the great "Mahe fail to do so, but much to the surprise of his many admirers the great "Marine?" was knocked out in the third round by his dusky opponent, who clearly outfought him from the very start. Child did most of the leading and landed with both hands as he pleased on the "Marine's" neck and head. In the first round he forced Le Blanche down through the rough La Blanche down through the ropes twice in succession with double blows

that would have felled an ox.

It was thought from the manner in which he was pushing the fight that Child would wear himself out and fall an easy prey to his heavier opponent, but he slacked up a little in the second round and coming up fresh in the third sent the "Marine" down four times in rapid succession. The latter got up groggily after eight seconds had been counted out, after his fourth fall, and counted out, after his fourth fail, and Child rushing in sent him down and out with a terrific left-hander. La Blanche was unable to walk, even after a rest, and had to be carried to his dressingroom. Billy Manning refereed the con-

After a brief intermission the principal actors in the chief event appeared, Conley being the first to enter the ring, attended by Prof. Billy Shannon, Capt. Neary and Seward Smith. Lawson's attendants were the two Mannings and Henry Peppers. Mort Curram was selected as referee and the watch holders were W. T. Harris for the club, W. Lassen for Conley and Johnny Watson for Lawson. Four-ounce gloves were used. Time was called at 9:55 o'clock. There was no preliminary sparring.

used. Time was called at 9:55 o'clock. There was no preliminary sparring. Lawson at once opening hostilities with a right-arm jab on his opponent's mouth. Conley responded with a left smash on the Australian's wind; both men fought flercely at close quarters for several seconds, when Lawson began to adopt foxy tactics, falling down at every opportunity. Three times he remained on the floor for eight seconds, after Conley had landed heavily on his wind. The effect of this was that the Bostonian became too confident, and wind. The effect of this was that the Bostonian became too confident, and rushed matters in the second round. After some terribly hot give and take work, in which both were badly punished, the Australian again started to fall down and rest, much to the chagfrin of his heavier opponent. When the men came up for the third round Lawson got in some terrific blows on Conson got in some terrific blows on Con-ley's head and face, but the pace was too hot and he soon tired. The Boston-ian then rushed matters, but failed to last, and at the call of time was groggy. Even the minute rest falled to rally him, but he hung on to Lawson's neck with one hand and punched him with the other time and again as the Australian closed in on him. The fifth round was the same thing over again, and it was evident that Conley was doing his best to lose the fight on a foul. Lawson came up fresh in the sixth round but could not fluish his man, although the latter was fresh in the sixth round but could not fluish his man, although the latter was very groggy, because Conley hugged his neck at every opportunity. In the seventh, however, the referee, who had been very indulgent from the start, pulled the men apart and admonished Conloy, who thereupon went to his corner and, refusing to proceed, pulled off his glows.

off his gloves.

Amid a good deal of excitement the referee announced that he awarded the fight to Lawson, but declared all bets off, as it was evident that Conley was

an Jacinto the Scene of a Sensational Murder.

At San Jacinto, Wednesday afternoon, Dr. J. A. Sapp, a well-known physician, shot and killed R. L. Pool, a prominent druggist. It is said that Pool walked up to Dr. Sapp and exclaimed: "You —, what did you say that for?" and raised his hand to strike. Sapp replied, "Keep away from me," and drew a revolver. Pool at this turned and a revolver. Pool at this turned and walked across the street to Brentner's hardware store and helped himself to a pistol from Brentner's window and asked one of the boys for cartridges, with which he loaded it. He then started after Sapp, who had in the meantime crossed the street and passed through McCormick's shoe store and out the back door. through McCormich's shoe store and out

Sapp sought cover in the livery barn.

The shot which killed Pool was fired by Sapp from the livery stable doors. Pool was standing about twenty feet distant. His pistol was discharged in the air as he fell dead, having fired four shots at Sapp, who in return had fired three times. Sapp was not injured. He immediately went to his home, about fifty feet distant, where his wife had fainted on the porch, having been an eye-witness of the shooting affray. He was at once placed under arrest and the house guarded. The Coroner's jury found that R. L. Pool had come to his death from two bullets, one penetrating the head and one the heart, fired by Dr. J. A. Sapp. The city is in a state of great excitement, as both men were prominent citizens and well thought of in the community. Pool leaves a young wife and little boy. The shooting arouse out of old difficulties, which had long caused lil feeling between the men.

Dwelling-house Burned.
At 12 o'clock last night an alarm of the was turned in for a fire at No. 221 senard street. The fire broke out in Benard street. The fire broke out in the rear of Gaston Sartiat's residence, out as the people have not been in the louse for two days it is not known what caused it. The same house caught fire about six months ago, but the fire was but out before any damage was done.

The family left two days ago, but did for remove their furniture, and the leighbors do not know what has become of them.

It is not known whether the house and furniture were insured or not. The louse was entirely destroyed and only amall portion of the furniture was a street.

AN OLD SENSATION REVIVED.

Runaway Preacher from Arkansas Iden-titled in California, An old Little Rock, Ark., sensation has just been revived in this city, and, as the principal actors are prominent members of the M. E. Church, South, the affair is of more than passing interest. Over twenty years ago Rev. Seth Burnett of Little Rock eloped with the wife of Rev. Mr. Herndon of the same place. The story was thoroughly ventilated in the Little Rock news papers at the time. Burnett was a man t no education and brought up in a butcher shop, but he was a man of some little fortune in the butcher business he joined the Methodist Church and married. Two children were the result of his union, and for a time he seemed to be one of the happiest family men in the city. But he got it into his head that he wanted to become a preacher, and it was then that he lirst displayed the instincts of a crank. He studied hard for a short time and was given a church

given a church. Just about this time he and Rev. Mr. Herndon became great friends, and he met Mrs. Herndon. Mrs. Hern-don and the Rev. Burnett took a great fancy to each other from the first, and it soon became evident to their intimate friends that something was wrong, but as Mrs. Herndon was the mother of four children and Burnett the father of two and the husband of a wife who seemed to think the world and all of him, everybody had an idea that the af-fair would end without serious trouble. fair would end without serious trouble.

In this they were mistaken, however, for one fine night Burnett and Mrs. Herndon disappeared, and for several weeks the affair was on the tongue of everybody, but, as is always the case, it died out and nothing more was thought of the seven-day wonder until a year ago, when some Little Rock people discovered Burnettt in San Diego, and as he insulted one of the party who used to be a friend of his an investigation was started, and Mrs. Burnett, who is still living in Little Rock, put herself in correspondence with some church people in this city and soon discovered that her runaway husband is alive and well.

well.

The discovery happened about a year ago, and Burnett was unearthed in the person of Rev. Edgar Dunbar, the name he has gone under since he came to Southern California some eighteen years ago. As soon as Burnett, alias Dunbar, who has been a minister in the M. E. Church, South, of Southern California for some years past, discovered that his identity was being looked up by his brothers, he packed up and left for New York city, under the plea that he wished to have an operation performed on his wife, and he has not yet returned. His trial before the church for adultery, bigamy or whatever they can dig up against him, has been set for the 15th day of March, but they do not expect day of March, but they do not expect him back, and it is almost certain that he will be found guilty under church law whether he returns or not, for they have arranged to have his first wife

When Burnett, alias Dunbar, first reached this city he engaged in the butcher business, and was known as butcher business, and was known as one of the hardest men in the city. He was very handy with his fists and was continually getting in fights. At one time he was known as the man who could whip any three butchers in the city, but he became converted just as he did in Little Rock, and the next thing known of him he was in the pulpit, and in a vey short time he was one of the most popular ministers of the gospel in Southern California.

Both Mr. and Mrs. Dunbar, for the Rev. Herndon's wife came out here with him, were looked on and treated as equals all over the country, and as

as equals all over the country, and as both were active workers they have done much toward building up the Southern Methodist Church in Southern Southern Methodist Church in Southern California. The water most modern workmen. The water reservoir is hung on a swing pivot surmounted by high arched handles with all necessary goblets attached, all of the highest art of workmanship and of the most modern pattern; also a case of California claret and a case of the choicest dried fruits, as a slight token of the esteem of the exhibitors and friends of Los Angeles and vicinity. The presentation speech was made by The presentation speech was made by the president, Hon. Joseph T. Brown, giving a brief history of the association from the formation of only a handful from the formation of only a handful of members to the present time of this very creditable exhibit. Mr. Bridge responded in a very feeling manner. The surprise was great; the recipient had not the slightest idea of anything of the kind in waiting for him. The silver set will be on exhibition on the platform during the entire day and evening. At night the auction of eggs and fowls will be continued, with a nnew band of music.

Detective Insley recently heard that a waiter named Miller knew of the watch and he hunted the man up, who offered and he hunted the man up, who offered to tell where it was for \$25, which Insley refused and placed Miller under arrest. This proceeding made Miller "peach," for he said that the wife of another waiter named W. C. Deacon had the watch. Detective Insley went to Deacon and got the, watch. Deacon said he found it on Spring street, and did not know who owned it. The loss of the watch was advertised in Tus of the watch was advertised in The Times, and Miller had a copy of the paper saved. Miller and Deacon had a split-up a few days ago, when the former told what he knew about the case, which led to the recovery of the property.

[Riverside Press.]
The Los Angeles Times refers to the fact that there were thirty carloads of fact that there were thirty carloads of oranges shipped from Riverside on Sunday and forty-seven more on Monday and adds that the season's output from here will amount to about 600 carloads, and that the total shipments from Southern California this season will not foot up more than 1800 carloads. If this estimate is correct this is a higger reduction from the original estimates and the season will necessary the season will not season will no bigger reduction from the original esti m ate of the crop than has been hereto-fore admitted. It is impossible, how-ever, to make any reliable estimate at the present time, though we are of the opinion that the figures above given for Riverside are considerably too low.

Are still offering great inducements to settlers on the Alessandro tract OF 21,000 ACRES! Which lies only eight and one-half filles distance from Riverside on the west. Ten thousand acres are already sold; 5000 acres are being improved. Between 300 and 400 families are living there today, with churchs, schools, stores and hotels. The Alessandro Tract of 21,000 acres is equal to 35 square miles, and is 12 miles long by 3 to 4 miles in width. A most magnificent valley. With the finest soll in the world for orange or fruit culture; with the best water right in Southern California. No stone or brush on the land. People wonder at the great success and rapid growth of Alessandro until they are driven over the tract, then they are not surprised, and all exclaim: "The half has not been told."

Nature has truly been lavish with her gifts at Alessandro in regard to climate and location, and we predict a much more rapid growth during the next two years than in the past year and a half of its existence.

The NOTICE OF THE PUBLIC IS CALLED

To the fact that this bank has the largest paid-up capital and surplus combined of any
savings bank in Southern California, and only loans money on approved real estate security; that among its stockholders are some of the oldest and most responsible citizens of
the community; that, under the State law, the private estates of its stockholders are prorata, liable for the total indebtedness of the bank. These facts, with care exercised in making loans, insure a safe depository for saving accounts. School teachers, clerks, mechanics,
employes in factories and shops, laborers, etc., will find it convenient to make deposits in
small amounts. CHILDREN'S SAVING DEPOSITS received in sums of 5 cents and upward. Remittances may be sent by draft or Wells, Pargo & Co. s Express.

The most brilliant society event of the season was the third and last of a series of assemblies which was given at Operahouse

The chandeliers were festooned with toral honeysuckle and the portion of the hall reserved for the patronesses formed a pretty picture with its background of balms and ferns, interspersed with calla illies. Upon three tables massed with howers were placed the favors, the center table containing an im mense Indian basket of carnations which attracted special attention. The favors included decorated and lessifiers characters of carnations:

table containing an immense indian basket of carnations which attracted special attention. The favors included decorated candlesticks, clusters of carnations; tiny Japanese tans in the shape of butterflies, bunches of cigarettes held together by ribbons, pipes, mice and quills, the latter being very prettily handpainted with appropriate inscriptions such as "The pen is mightier than the sword." The cotillion was successfully led by J. H., Onthwaite, assisted by B. Marshal Wotkyns, and G. F. Granger. It did not begin until 11 o'clock, after the serving of salads and coffee. Later on another menu of cakes and ices was enjoyed by the guests. About twenty-five couples participated. The best of music was furnished by Arend's Los Angeles orchestra.

The patronesses were Mrs. B. M. Wotkyns, damong those present were: Dr. and Mrs. F. F. Rowland.

Among those present were: Dr. and Mrs. F. Rowland, Mr. and Mrs. B. M. Wotkyns, Mr. and Mrs. W. S. Wotkyns, Dr. and Mrs. Sherk, Mr. and Mrs. J. H. Outhwaite, Mr. and Mrs. E. F. One cannot go out of doors without enountering the chronic tourist growler. A
party arriving lately overland made bitter
complaints about reaching Los Angeles at
8 p.m. instead of on time the previous
evening, not taking into consideration that
she had the sleeper over night without extra charge, thus saving a hotel bill and
passing the night just as comfortably. Another remarks that she hates these ugly
mountains—that they cannot compare with
those more verdant ones back East. Another votes the oranges too sour and the
lemons so bitter. Some invalids land here,

other votes the oranges too sour and the lemons so bitter. Some invalids land here, shut themselves up in a small foom, hug the gas stove most of the time, seldom inhale the out-of-doors air, thus giving it a chance to benefit their diseased lungs, and then role the climate a humbug.

The soil uncovered with green is a frequent cause of complaint, the fact not being taken into consideration that verdant delds are the result of a moist atmosphere, the very thing invalids come here to avoid. The sun is too hot, the shade too cool. The poor roses, that are not to blame for the setback the windstorm gave them, and even the popples that should show their yellow faces more abundantly at this time, come in for their share of the general complaint. The roads are either too dusty or too muddy, the horses too fast, the burros too slow, and thus the tale of woe is repeated day after day until the time comes to return East, which is lovely—in the distance.

Richards & Pringle's Minstrel Company gave a very satisfactory performance at the corrections.

Richards & Pringle's Minstrel Company gave a very satisfactory performance at the operahouse Wednesday night before a good-sized and enthusiastic audience. The whole show went off with a "go." and there was no let up on the fun from start to finish. The jokes were new for the most part, the rendition of the old-time darky songs was first-class and the dancing far above par. Will Eldridge made a hit in his specialty acts, and Billy Kersands well maintained the reputation he has earned of being a laugh-provoker of the deepest dye. deepest dye.

#### POMONA.

The Second Saloon Case Decided After an Exciting Trial.

Green Found "Guilty as Charged"-Lively Scenes Between the Attorneys-Couneilman Rolph "in It"-The Editorial Visitors.

THE TIMES branch office for Pomona is with C. H. Marshall & Co., where news items, advertisements and subscriptions are received,

The case of the city vs. Green for selling spirituous liquors in the city of Pomona was concluded yesterday afternoon. The jury was a little longer arriving at a verdict, but they "got there just the same," and in just one hour brought in a verdict of "gullty as charged." This has been the most hotly-contested case of any. Times grew too hot for comfort yesterday, but no trouble was had. It is often very amusing to the spectators. The attorneys persist in interrupting one another, and at one time when the City Attorney was arguing before the jury he was interrupted by Wester-man, and then followed a regular circus. Westerman stated that the city attorney was always hopping in like a little dog, and began to mimic one. Sumner interrupted, whereupon Westerman said hotly: "You wouldn't dare come out on the street and

wouldn't dare come out on the street and say that!" Sumner again interrupted him and Westerman fairly shouted, "Shut up!" The judge finally succeeded in quieting, the attorneys and spectators.

Green was the keeper of the bar at Brown's Hotel, and it is probable the case will be appealed. The punishment is ten days in juli and \$150 fine.

THE TIMES reporter saw an excited group talking on the street Wednesday night, and edged up to see what was the trouble. The crowd had a lot of postal cards addressed to each individual, containing the following:

"Mr. —: Your street poll tax is still unpaid. The time has about arrived when I am compelled to enforce payment, if not paid voluntarily. So do not expect further notice, but call on me on or before the first day of March and pay the amount, and save me the unpleasant duty of bringing suit. Respectfully.

"J. W. LORBEER, City Marshal."

The card was headed in big letters, "Last

"J. W. LOBBEER, City Marshal."

The card was headed in big letters, "Last Notice." The receivers are hot over the matter and vow they will never pay, that the City Marshal had no right to dun them on a postal, etc. It was undoubtedly a bad move on the part of the Marshal, and about 150 of the cards were sent. When the City Attorney's attention was called to the matter, he said the Marshal had no right to do it, but he meant nothing against the law. Notice." The receivers are hot over the matter and vow they will never pay, that the City Marshal had no right to dun them on a postal, etc. It was undoubtedly a bad move on the part of the Marshal, and about 150 of the cards were sent. When the City Attorney's attention was called to the matter, he said the Marshal had no right to do it, but he meant nothing against the law. The affair will be investigated, though it is no criminal matter.

It is useless without.

The arrst leap year party of the S.S.S. The narst leap year party of the S.S.S. The narty leap year party leap y ninal matter.

COUNCILMAN ROLPH IN IT. A prominent member of the high-license party said yesterday: "You say to THE TIMES Councilman Rolph will be in this Times Councilman Rolph will be in this fight, too. We've got evidence to boost him and we are going to do it. The papers are being made out now. Henry Gage of Los Angeles will assist Westerman and we intend to carry our fight right on." Rolph is a strong anti-saloon man. The fight grows hotter day by day and everyone is talking excitedly about the outcome of the fight. It is safe to say that there was never any question in the city over which a fight was waged so long and so bitterly.

THE EDITORIAL VISITORS. THE EDITORIAL VISITORS.

Pomona is taking some steps to secure a visit from the National Editorial excursion about the middle of next May. The Board of Trade of Pomona has asked H. G. Tinsley, of the Pomona Progress, to extend an invitation to the committee having the excursion in charge to come and spend at least a few hours in this city. A drive to the beet-sugar factory at Chino and aluncheon, etc., are promised to the visiting excursionists. The coming of the National Editorial Association into Southern California is a most important matter of public interest to this part of the State. The excursion will be made up of about 800 editors and newspaper publishers from every State in the Union. It will be the largest affair of the kind ever known on this Coast, and will be a powerful factor in advertising this State all over the country. The excursion will come to California via the Santa Fé route and will depart from San Francisco via the Central Pacific and Northern Pacific railroads. There will be none but genuine newspaper publishers or editors in the party. No reporters or merely representatives of newspapers will be allowed in the party. The National Editorial Association is made up of the simon-pure journalists. Such men as George, W. Childs of Philadelphia; Congressman and Editor Boutelle of Bangor, Me.; Mrs. Amelia Barr, the authoress and publisher; Gov. Peck, the veteran editor of Milwaukee, and William Purcell, the famous Democratic editor of the Rochester Dally Union, will be members of the excursion party. It is settled that Redlands, Riverside, San Diego, Passadena, San Gabriel and Baldwin's ranch are to be visited, and we want Pomona to have a visit, too. We have much to interest our Eastern guests, and to show what is typical of rural scenes in Southern California. Pomona will do the handsome thing by the editors, we are sure. Such an opportunity to show Southern California to the world very seldom presents itself.

The wires and apparatus for the electric lights are being put up under contract with a local company. The Pomona is taking some steps to secure a visit from the National Editorial excursion sarry more passengers than do the trains ound eastward.

A "boomlet" in real estate has struck the own. Some predict that a full-fledged com will follow.

Juan Ruiz will take his meals in the county jail for thirty-seven and on county jail for thirty-seven and one-hair days as a penalty for stealing a gold watch from Peter Duarte of the Santlago mines. Ruiz stole the watch on Monday last and immediately left the mining-camp. Owing to a peculiar boot worn he was tracked as far as the picnic grounds in the mouth of Santlago Cañon. Word was then sent to Sheriff Lacy, who proceeded Wednesday evening to Olive Heights, where it was supposed the thirs had gone. He was found in posed the thief had gone. He was found in the home of a friend with the watch hid in a small cloth sack tied under his shirt. He was taken before Judge Marks yesterday, charged with larceny, and fined \$75. Failing to pay the fine he was sent to jail for thirty-seven and one-half days.

eeting at Santa Ysabel to Devis Means to Secure Railway Communication with the Coast.

In response to a call issued by a committee of citizens of what is known as the mountain belt of San Diego county, a convention of the representative citizens of the several communities assem-bled at Santa Ysabel, in that county, February 18, to discuss ways and means of obtaining a railway connec-tion with the coast at a point desirable

for a market.

After a thorough deliberation upon

After a thorough deliberation upon the exigency that exists in the affairs of their otherwise prosperous community, by reason of the lack of transportation facilities, the following resolution was offered and adopted amid a demonstration of great enthusiasm:

Whereas, the citizens of Julian, Spencer Valley, Oronoco, Anahane, Banner, San Felipe, Warner's, Santa Ysabel, Mesa Grande, Ballena and contiguous districts of the county of San Diego have waited long and patiently for better transportation facilities with the coast communities, in order that there may be opened up for immediate settlement and cultivation a million acres of most valuable lands now lying mediate settlement and cultivation a million acres of most valuable lands now lying unproductive throughout the district above named, in order to secure to our fruitgrowers and farmers, to our stock-raisers and miners, a practicable route over which to market their produce in a saleable condition, thus utilizing the thousands of tons of mountain products now suffered to go to waste by reason of insufficient and inadequate means of transportation; and that our mountain districts may be assured the immigration that the unsurpassed fertility of our soils and acknowledged superiority of our soils and acknowledged superiority of coursoils and exknowledged superiority of coursoils and acknowledged superiority of our products, the bountifulness of our resources and the salubrity of our climate so richly merit; and

or our products, the bountifulness of our resources and the salubrity of our climate so richly merit; and WHEBEAS, the aforesaid people of the mountain belt of San Diego county have in the past used every endeavor to obtain from San Diego county and her citizens the railway facilities so vital to our prosperity; and WHEBEAS, in every instance the people of San Diego city and those portions of the county lying without the range of immediate contact with any such proposed line have shown themselves indifferent to our necessities, as evidenced by the recent defeat at the polls of the proposition to bond the county to build such road, and the failure on the part of these people to properly subscribe to the subsidies subscribed by interested citizens of San Diego county, for railroad improvements in the past; and WHEBEAS, the above named citizens of San Diego county, recognizing the fact that the increasing vields of the greatly in the resident.

terested citizens of San Diego county for railroad improvements in the past; and WHEREAS, the above named citizens of San Diego county, recognizing the fact that the increasing yields of the greatly-increased acreage of fruit and farm lands are of such an extent and nature as to render transportation of these products to market by the old way absolutely impossible and inconsistent with any degree of profit whatever; now, therefore, be it

Resolved, by this meeting that it is the sense of this meeting, composed of representatives from each of the districts above named, that the mountain belt of San Diego county must secure connection by rail with some desirable market at once, either westward with San Diego or northward via Temecula with Los Angeles, and while appreciating the possibility that exists of our withdrawing our support and patronage from San Diego city and bestowing the same upon a rival community, yet our circumstances are such, and the conditions of our portion of the county have reached such an extgency, that for self-preservation the people of these mountains stand ready and willing to pledge a financial support and an unqualified moral support to any corporation, company or line of transportation from either of these directions that may offer to relieve the tension on our necessities; be it further.

Resolved, that a committee be appointed, to consist of one delegate from each district here represented, whose duty it shall be, first, to examine into the character, amount, terms and conditions of any subsidy that can be raised by thectitizens of the mountain belt of San Diego county; second, to communicate with those persons in San Diego or Los Angeles who would be likely to entertain the proposition of placing capital in such an enterprise, third, to investigate the advisability of the people of the mountain belt subscribing stock in any stock company that may be organized to accomplish the object herein mentioned; fourth, that said committee be requested to report at the time of the adjourned m

lutions to The Times, by order of the meeting, writes as follows:

I am requested by the president of the convention to inform you that the citizens of the mountain belt of San Diego county are thoroughly in-earnest about securing railway communication with a desirable market. This district is the richest horticultural and gold mining belt in Southern California, and for many years citizens have endeavored to induce a railroad to build out from San Diego to connect with this region, but so far the short line of the San Diego, Cuyamaca and Eastern Railway, extending 22 miles east of San Diego city, and leaving a gap of 35 miles to the center of the mountain horticultural belt; is the sole result of their efforts. The immense acreage of fruits coming into bearing in these sections now requires an immediate connection by rail in order that any profit may accrue to the grower thereof. It is this exigency that induced the people of the mountain belt to lay before the people of the county for a half million dollars to be used in constructing a wagon road from Foster's station, the present terminus of the San Diego, Cuyamaca and Eastern Railway, through the mountain country north to San Jacinto, which was defeated at the polls by a small majority. The theory of a line to connect with the proposed Los Angeles by the country of the country the first of the san Diego, although that city now receives the benefits of a large trade from this great extent of country. Communication with Los Afigeles by means of a motor line from Santa Yashel city now receives the benefits of a large trade from this great extent of country. Communication with Los Augeles by means of a motor line from Santa Ysabel to Warner's ranch, on to Temecula, there to connect with the standard line, seems to be the only hope for these people to secure the greatly-needed ontlet and a market for

MISSIONARY WORK.

The Second Day of the Conference.

Interesting Addresses by a Number

Rev. Mr. Bunker, a Returned Missionary Gives His Experience in Burmah-Characteristics of the Burmese -Today's Programme

The missionary convention at the First Baptist Church reconvened at 9 a.m. yesterday, at which time an exposition of the scriptures was given by Rev. Alex Grant of Santa Barbara, who took for his subject the "Steward-ship of the Mystery." Christian influ-ences at work in a man's nature he termed the mystery, the great problem being how to meet all classes and set influences at work to the best advantage. There are millions of people who have never even heard of the death of the Savior, and the blame of this lies largely on the members of the church incarnate.

This speaker was followed by Rev. V. A. Henry, who spoke to the question of how the missionary spirit is helpful to personal piety. Many ways were shown and illustrated, the speaker ably demonstrating that it was not only useful but necessary to a truly pious man that he have a love for the work of the missions.

work of the missions.
"Main and Secondary Motives in Mission Work" was the subject of Rev.
William Appell's address, in which he
suggested the command, the example
and the love of Christ as, together with and the love of Christ as, together with the world's great need, being the prin-cipal incentives of the missionary, and Rev. A. W. Rider spoke on the subject of mission work, a safeguard against perils of the day, and Rev. W. W. Tinkerfollowed with a short talk in which he showed the close relationship existing between home and foreign mis-sions

At 2 p.m. the conference was again called to order, the first speaker being Rev. Charles Button, D.D., who showed by scripture exposition how the Christian is debtor to both Greek and barba-

"The New Testament Ideals in Missionary Service," by Rev. Charles Winbigler, was followed by a short interval devoted to informal discussion, in the

course of which many valuable points and suggestions were offered. The afternoon session closed with prayer for more missionaries, in which Rev. Peter Grant led.

EVENING SESSION. The evening session was perhaps the most interesting and certainly the best attended, many persons being un-

able to secure seats.

The speaker of the evening was Rev.

H. Bunker, a returned missionary from

Burmah, who illustrated his talk with stereopticon views, descriptive of his life and experiences among the native tribes. The views were excellent, and for the most part taken by himself. In lecture style he took his hearers up lecture style he took his hearers up the River Irrawaddy from Rangoon to the mission station of Bassien. He de-scribed the different Burmah tribes, and one of their pagodas at Rangoon, 400 feet high, and covered to the top with gold leaf and jewels. A priest's home, costing 50,000 rupees, or \$25,000 was shown on the screen, also the 000, was shown on the screen, also the mission house at Zayats. These missions or, as they are called, "preaching houses," cost about \$5, and are really

quite comfortable. There are at one of the schools at Bassein 800 native scholars being taught the truths of the Christian religion, and scattered throughout Bur-mah at the present time about 30,000 Christian converts. In America it is difficult to conceive what actual starvation means, but that it is a reality in certain districts in Russia there is no room for doubt, and Russia there is no room for doubt, and assistance should be freely given in the interest of common humanity. Mme. Olga Novikoff, a Russian lady of high position, is at the head of the relief movement, which is an assurance that all contributions will be properly applied. The Matthias Gray Company, of No. 206 Post street, San Francisco, is prepared to receive subscriptions, which will be cabled weekly to Mme. Novikoff's agent in London by the Nevada Bank of San Francisco, which is acting as treasurer for the fund and to which collections for the fund and to which collections will be turned in daily. All contributions, however modest, will be acknowledged through the daily press. Contributions will be received at this office, or they may be forwarded direct to the Matthias Gray Company at San Francisco.

THE RAILROADS.

Where the Shippers Might Have Made a Test Case.

Progress on the Electric Road-An Unprof itable Sleeping Car Line-General, Local and Personal

"I am a railroad man and not a shipper," said one of the best-known traffic agents in Los Angeles yesterday, "and of course I am not supposed to say any thing against existing rates, but if I were a shipper do you know what I would do? Well, I'll tell you. When that orange tariff went into effect quoting a 90-cent rate to all Missouri River points except Minneapolis and St. Paul I would have packed a car, billed it to one of those cities at the 90-cent rate and offered it to the Southern Pacific to be forwarded. Of course it would have been refused. Then I would have again offered it at the same rate, in the presence of witnesses, and when it was again refused I would have yielded under protest and let the freight go at the \$1.25 rate. Then I would have made a formal demand for a refund of 85 cents a hundred. I would have won it, cents a hundred. I would have won it, too. Do you suppose that the spirit of the interstate commerce law would uphold such discrimination againt those two cities? Minneapolis and St. Paul are considered in rate-making as Missouri River points, yet for fifteen days this year they were deprived of this right and were discriminated against by the makers of the orange tariff. The shippers could have made a good fight on this point and established a valuable precedent.

# DEATH! People's Store!

February 18, 1892.

A greater sale of dress goods was never heard of in Los Angeles. Sixty feet of show window does not display one-tent of the volume of dress goods we have in this sale. Fifteen to 50 cents per yard saved, according to price, on silks and dress goods. Our entire stock of spring dress goods offered to you at a ratio of 33 1-3 per cent. less than importation price. We have determined to increase the usefulness of our dress goods department, and, in doing so, will spare no means or ends to accomplish our object. You will admit that our merchandise throughout the house is offered so much under price that there is no one really in competition with us.

We are opening up hundreds of cases of new spring and summer fabrics, all the novelties in wash effects, printed goods, which we are offering at New York cost, which means selling you the very latest merchandise at less price than you can buy anything that has been in stock heretofore, even though it be reduced 33 1-3 per cent. Our increased business, in the face of all sorts of sales, proves conclusively that we lead this market. You will find the merchandise in our stores just as we represent it to you in print.
